

DWA_03.5 Knowledge Check_DWA3.2

1. User story(ies) in Gherkin syntax for the "+" button.

```
#### USER_STORY

##### Feature: Adding Items to Cart with + Button

##### As a shopper

- I want to easily increase the quantity of items in my cart using the + button
- So that I can quickly adjust the number of items I intend to purchase
  Scenario: Adding a single item to the cart
- Given I am on the product page
- When I click the + button next to a product
- Then the quantity of that product in my cart should increase by 1
  Scenario: Adding multiple items to the cart
- Given I am on the product page
- When I click the + button next to a product twice
- Then the quantity of that product in my cart should increase by 2
  Scenario: Adding items from different products
- Given I am on the product page
- When I click the + button next to different products
- Then the quantity of each respective product in my cart should increase accordingly
```

2. User story(ies) in Gherkin syntax for the "-" button.

```
##### Feature: Reducing Items with the - Button
```

As a shopper

- I want to be able to reduce the quantity of items in my cart using the - button
- So that I can easily adjust the number of items I want to purchase
- Scenario: Reducing a single item from the cart
- Given I have items in my cart
- When I click the - button next to a product
- Then the quantity of that product in my cart should decrease by 1
- Scenario: Reducing multiple items from the cart
- Given I have items in my cart
- When I click the - button next to a product twice
- Then the quantity of that product in my cart should decrease by 2
- Scenario: Reducing items from different products
- Given I have items in my cart
- When I click the - button next to different products
- Then the quantity of each respective product in my cart should decrease accordingly

Feature: Viewing Updated Cart after Reducing Items

As a shopper

- I want to see the updated cart contents after reducing items using the - button
 - So that I can verify the quantity of items in my cart
 - Scenario: Viewing the updated cart after reducing items
 - Given I have reduced items in my cart using the - button
 - When I view the cart contents
 - Then I should see the correct quantity of items in my cart
-
